

TEMILOLUWA SAMUEL AJAYI

Yaba, Lagos, Nigeria | (+234) 9057253126 | Email: temiloluwaajayi2019@gmail.com | LinkedIn: [Temiloluwa Ajayi](#)

EDUCATION

M.Sc Financial Engineering, WorldQuant University, Louisiana, USA
B.Sc. Petroleum Engineering, University of Ibadan, Nigeria.

Apr 2026 to Present
Feb 2021 to Feb 2026

WORK EXPERIENCE

AI & Automation Analyst, Sankore Investment, Lagos, Nigeria.

Apr, 2026 - Present

- Built and deployed an automated compliance reminder and escalation system with n8n, running daily and routing pre-deadline reminders and multi-level post-deadline escalations to team-specific emails via branded HTML templates, with full audit logging and deduplication.
- Developed a full-stack compliance management platform (Next.js/TypeScript) covering regulatory compliance tracking, litigation case management, and reporting, integrated with Google Workspace, AWS S3, and automated PDF report generation.
- Designed an 11-model PostgreSQL/Prisma data schema and wrote data migration and verification scripts for backfilling, normalization, and cross-database reconciliation, ensuring data integrity across production and backup systems.

Coding Tutor, Tutorszone.ng, Ibadan, Nigeria.

May, 2025 – Apr, 2026

- Delivered Python based instruction in data analysis and data structures to K–12 and adult learners across Africa, Asia, Europe, and North America, achieving a 95 percent certification completion rate on platforms such as freeCodeCamp and Coursera.
- Collaborated on hands on data analysis projects using Python libraries including Pandas, NumPy, Matplotlib, and Seaborn, alongside SQL and Excel, and built structured reporting templates to track and visualize student performance trends, improving analytical accuracy by approximately 35 percent.

Freelance Data Scientist.

Dec, 2022 – Apr, 2026

- Conducted quantitative and qualitative analysis on the Ukraine–Russia conflict's impact on African students using Advanced Excel, Python libraries such as Pandas and NumPy, and Google Sheets for cloud based collaboration; applied structured thematic and conceptual coding to generate data driven insights.
- Carried out a correlation study on Mathematics and Chemistry performance using Excel, regression analysis in Python, and visualization with Matplotlib and Tableau to support actionable recommendations.

Reservoir Performance Intern, SLB Nigeria Limited, Port Harcourt, Nigeria.

Nov, 2024 - Apr, 2025

- Developed a Python based biometric attendance prototype with structured data logging and validation logic, creating automated reporting outputs in Excel dashboards that reduced processing delays by 35 percent and improved access control monitoring accuracy.
- Managed and analyzed operational inventory datasets within enterprise systems, applying data validation, structured database updates, and Excel based performance reporting to improve data accuracy and decision support visibility by 20 percent.

Data Analyst, GOLEARN Africa, Lagos, Nigeria.

Sep, 2023 - Mar, 2025

- Developed and automated structured data pipelines and relational databases using Python, SQL, and Excel, improving reporting accuracy and operational efficiency by 30 percent.
- Built AI-assisted performance and engagement tracking systems with advanced Excel and SQL, reducing manual reporting by 40 percent and enhancing KPI visibility for decision-making.

LEADERSHIP & VOLUNTEER EXPERIENCE

Logistics Team Lead, Society of Petroleum Engineers (SPE) UI, Ibadan, Nigeria.

Apr 2025 - Jan, 2026

- Managed logistics for major energy and climate-focused events like Ambizero, reducing operational costs by 23%.
- Optimized event operations using structured data insights to improve overall efficiency and participant engagement.

Head of IT, Krawdwise Africa, Lagos, Nigeria.

Dec, 2024 - Dec, 2025

- Led a team to deploy advanced systems, boosting operational efficiency and performance by 30%.
- Developed automated workflows to support data-driven decision making.

Volunteer, Junior Achievers Nigeria.

Nov 2024 - Dec 2025

- Supported Generative AI, Set4Lyf, and Global Money Week programs, delivering workshops and mentorship.
- Tracked volunteer engagement and program impact using spreadsheet and python data frame to improve overall outcomes.

NOTABLE ACHIEVEMENTS

- | | |
|---|------------|
| ● Member, Millenium Fellowship Global Admissions Committee. | 2025, 2026 |
| ● Scholar, Nigeria Higher Education Foundation | 2025 |
| ● Delegate, Younga Task teams | 2025 |
| ● 2x Delegate, Bank Of America Career Day | 2023, 2024 |
| ● Awardee, Nigerian Federal Government Scholarship | 2022 |
| ● Recipient, Dean's List Of Academic Achievement Award | 2022 |
| ● Awardee, Foursquare National Scholarship | 2022 |

SKILLS & INTERESTS

Skills: Artificial Intelligence (DL, CV), ML Algorithms, Python Programming (Expert), R Programming, SQL, Spreadsheets, Tableau, Thematic Analytics, Project Management, Effective Communication, Problem-Solving, Time Management, Relevant Certifications

Interests: Process Optimization, Predictive modeling, Database management, Dashboard design.
